# Community Forest Training Program: Management & Stewardship

February 3, 2026

Connecting everyone to the outdoors™

# Welcome!

**Warm-Up Exercise:** In one sentence or less, how do you define stewardship?

# Community Forest Training Program: Series Overview

**5-month, virtual workshop series** designed to provide land managers with the **strategies, skills, and resources** needed to create and sustain community forests.

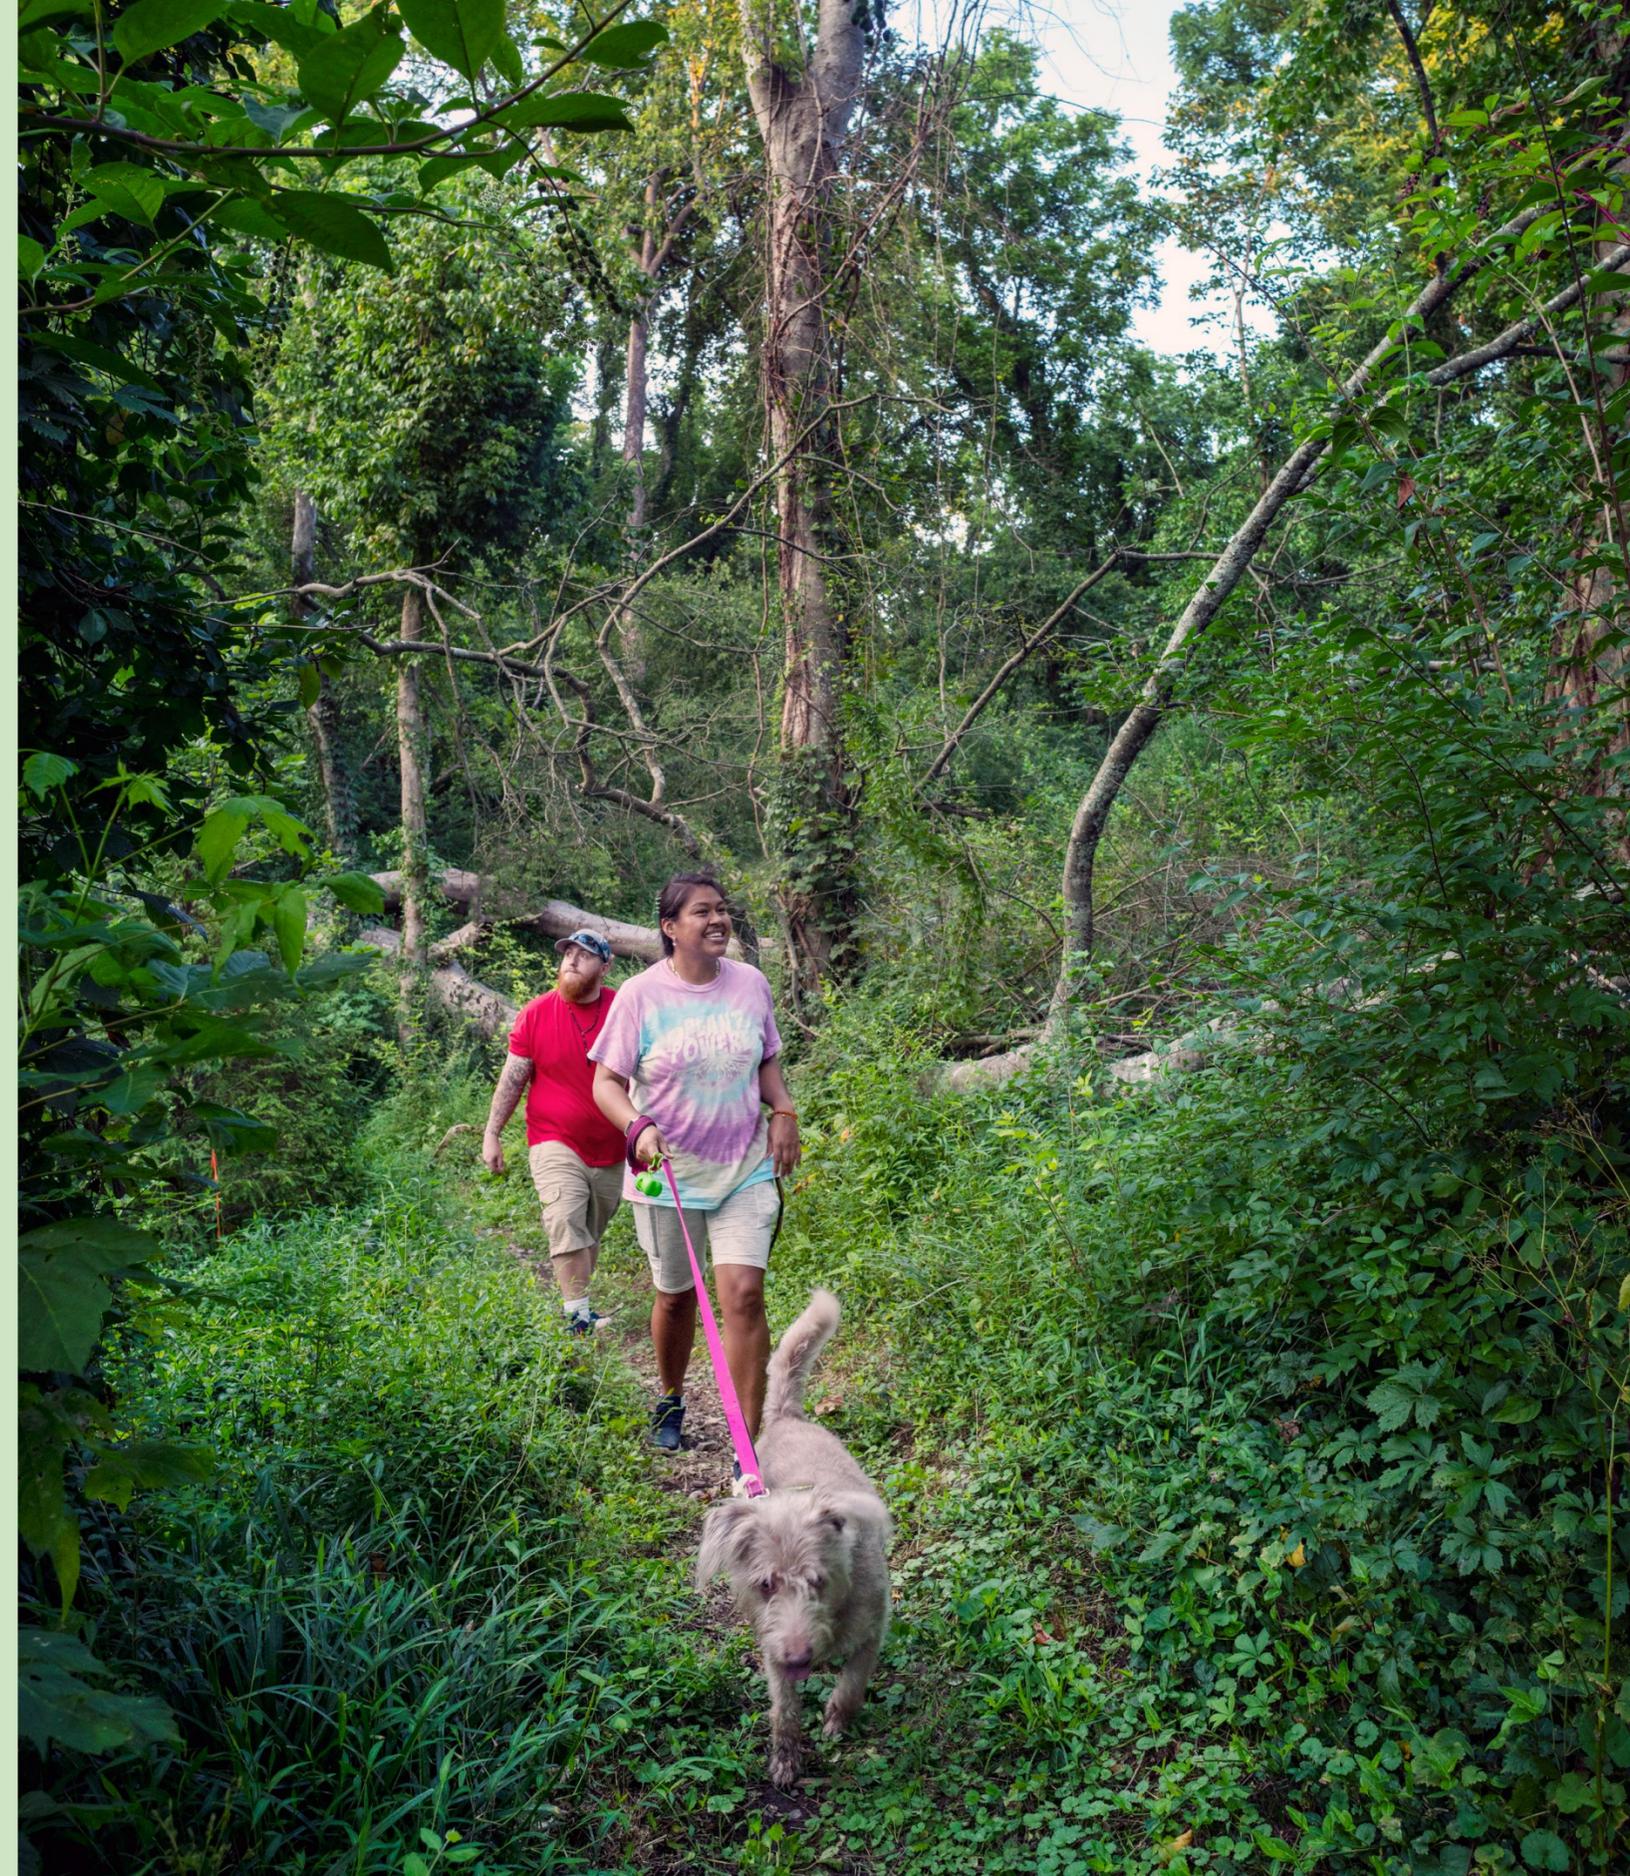

## Session Dates:

- November 4: Principles of Community Forests
- December 2: Ownership, Governance, and Funding
- January 6: Community Engagement and Visioning
- February 3: Management and Stewardship 
- March 3: Project Implementation

# Agenda

- Session 3 Recap
- Key Principles for Long-Term Management Planning
- Case Studies:
  - McKinleyville Community Forest
  - Chimacum Ridge Community Forest
- Panel: Community Forest Management & Stewardship
- Speaker Q&A
- Next Steps

# Community Engagement & Visioning

*Why is broad community input critical for community forests? How do you build broad support?*

- ❑ **It's not a *community* forest without *community* engagement.** Public ownership, input, and management is what sets community forests apart from other conservation projects.
- ❑ **The character of the community will influence the character of the community forest.** Community members must be bought into the long-term vision for the land in order for it to produce meaningful benefits. An established community vision sets the stage for management and stewardship.
- ❑ **Everyone needs a seat at the table.** Go beyond your usual suspects – actively seek out new stakeholders. A comprehensive, sustainable community vision means casting a wide net and bringing people into the process who may never have participated in conservation work before.
- ❑ **Be mindful of your message.** Whether you're engaging user groups or elected officials, clear and intentional messaging around the benefits and values of a community forest is critical for cultivating support.
- ❑ **Conflict is a when – not an if.** Conflict is to be expected when you're building consensus among diverse perspectives. Being prepared to manage conflict effectively is an essential component of a community forest process.

# Long Term Management & Stewardship

## Bringing the Community Forest to Life!

Why does good long term management matter?

It is the path to...

- Building community and shared sense of ownership
- Bringing community's vision to life
- Responding to evolving community needs
- Activating the land
- Having fun!

# Developing a Management Plan

# Management & Stewardship Approach

1. Use **Management Plan** as foundation.
  - Build Annual Implementation Plans from 10-year Management Plan
2. Determine **one entity** that can take lead on coordinating all management activities.
3. “Map” out the **constellation of partners** than can help to implement management plan. Be creative!
  - Hired contractors (e.g. forester, trail builder)
  - Non-profit partners (e.g. trail focused non-profits, education non-profits)
  - Community institutions (e.g. school system, municipal services – road maintenance)
  - Volunteer groups / days
4. **Assess** implementation and management progress annually, evaluate new needs, adapt and adjust.
5. **Celebrate** community and constellation of partners working to bring the community forest to life!

# Models for Stewardship & Management

## Kingfield Community Forest

- Town ownership
- Non-profit coordinates management
  - Hires professionals
  - Organizes volunteers
- Formal agreement between Town and non-profit
- CF Committee is decision making body, approves management plan and annual implementation plans
  - Housed within town
  - Facilitated by non-profit

## Bethel Community Forest

- Non-profit ownership
- Non-profit coordinates management
  - Hires professionals
  - Organizes volunteers
- CF Committee is decision making body, approves management plan and annual implementation plans
  - Housed within non-profit

# Funding

## Management & Stewardship

- Management Endowment
  - [Calculator](#)
- Activation Fund
- Ongoing Grants

# From Vision to Stewardship Growing a Community Forest

# Why Chimacum Ridge?

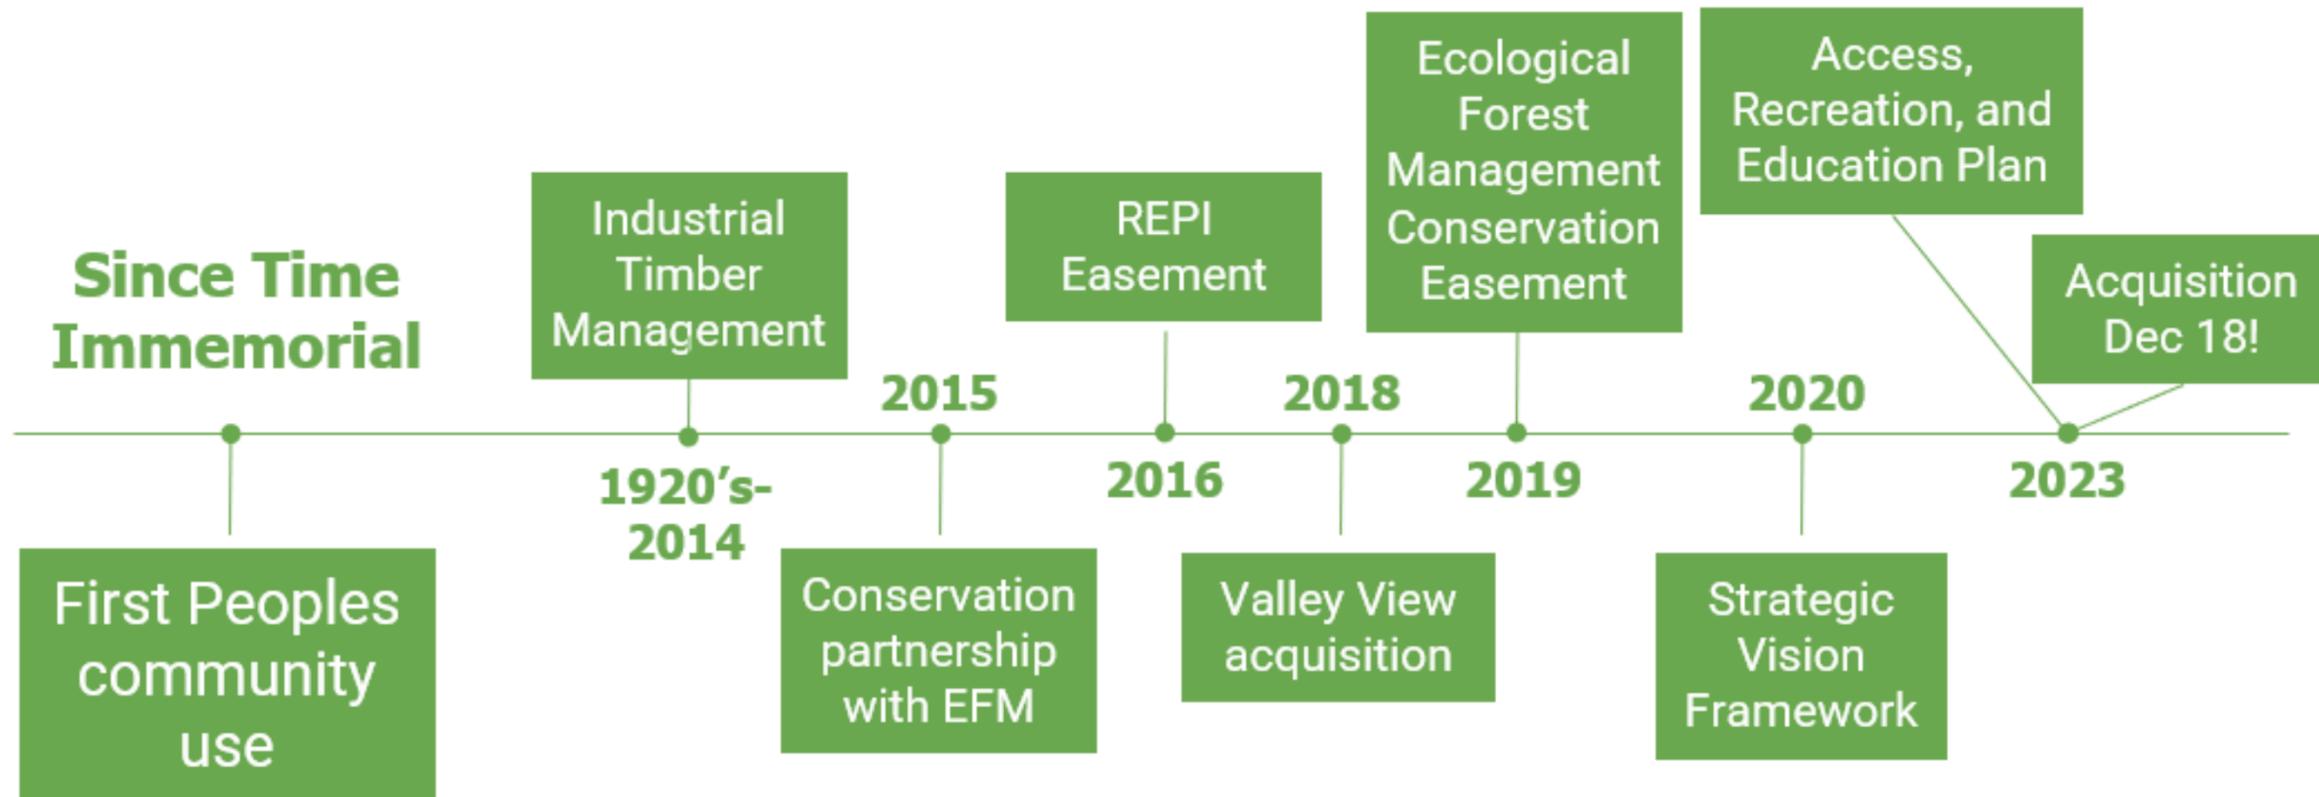

# Why a Land Trust Led This Project

**Community Forestry =  
Conservation of Forestlands (And  
so much more!)**

# Pre-Acquisition

## History of Chimacum Ridge

Ancestral lands of the Chemakum and S'Klallam Tribes

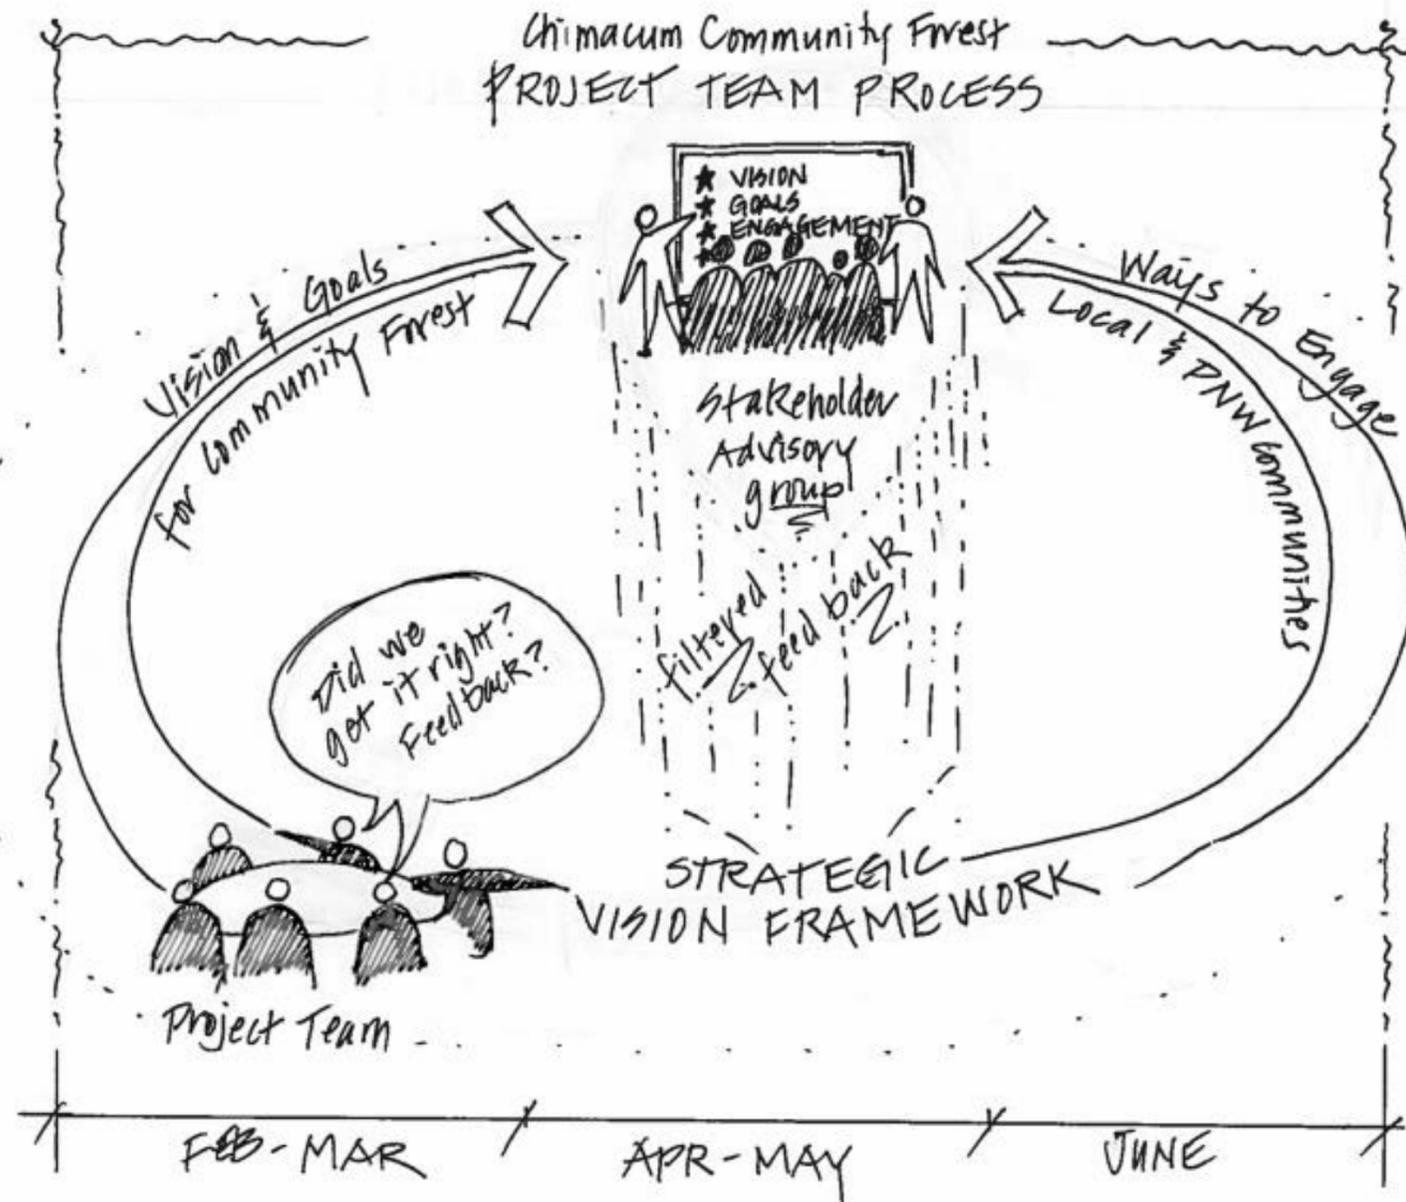

# Laying the Foundation

## Mission Statement

The mission of the Chimacum Ridge Community Forest is to sustain and share the ecological, cultural and economic benefits of this community-driven, working forest for generations to come.

## Vision Statement

Chimacum Ridge Community Forest is a resilient forest for all, connecting communities and modeling regenerative relationships with the land.

# Opening the Forest

**Chimacum Ridge Community Forest**

**Chimacum Ridge Community Forest**

**ḡənʔá čǝyǝxʷ! à**  
**Bienvenidos a tu bosque comunitario**  
**Welcome to your community forest**

EVERYONE IS WELCOME: to enjoy, learn and benefit from Chimacum Ridge Community Forest. We encourage everyone to show kindness and respect to other users of the forest as well as to the wildlife, plants, and trees that call it home.

**What Is a Community Forest?**

**C**OMMUNITY FORESTS are owned and managed by a local group of people to provide recreation and benefits to the community. They are managed for the ecological, social, and economic benefits of the forest. Community forests are owned by a voluntary association of citizens. The forest is governed by a volunteer board of directors who are supported by their volunteer group which works on the ecological, social, and economic benefits to the community of Jefferson County.

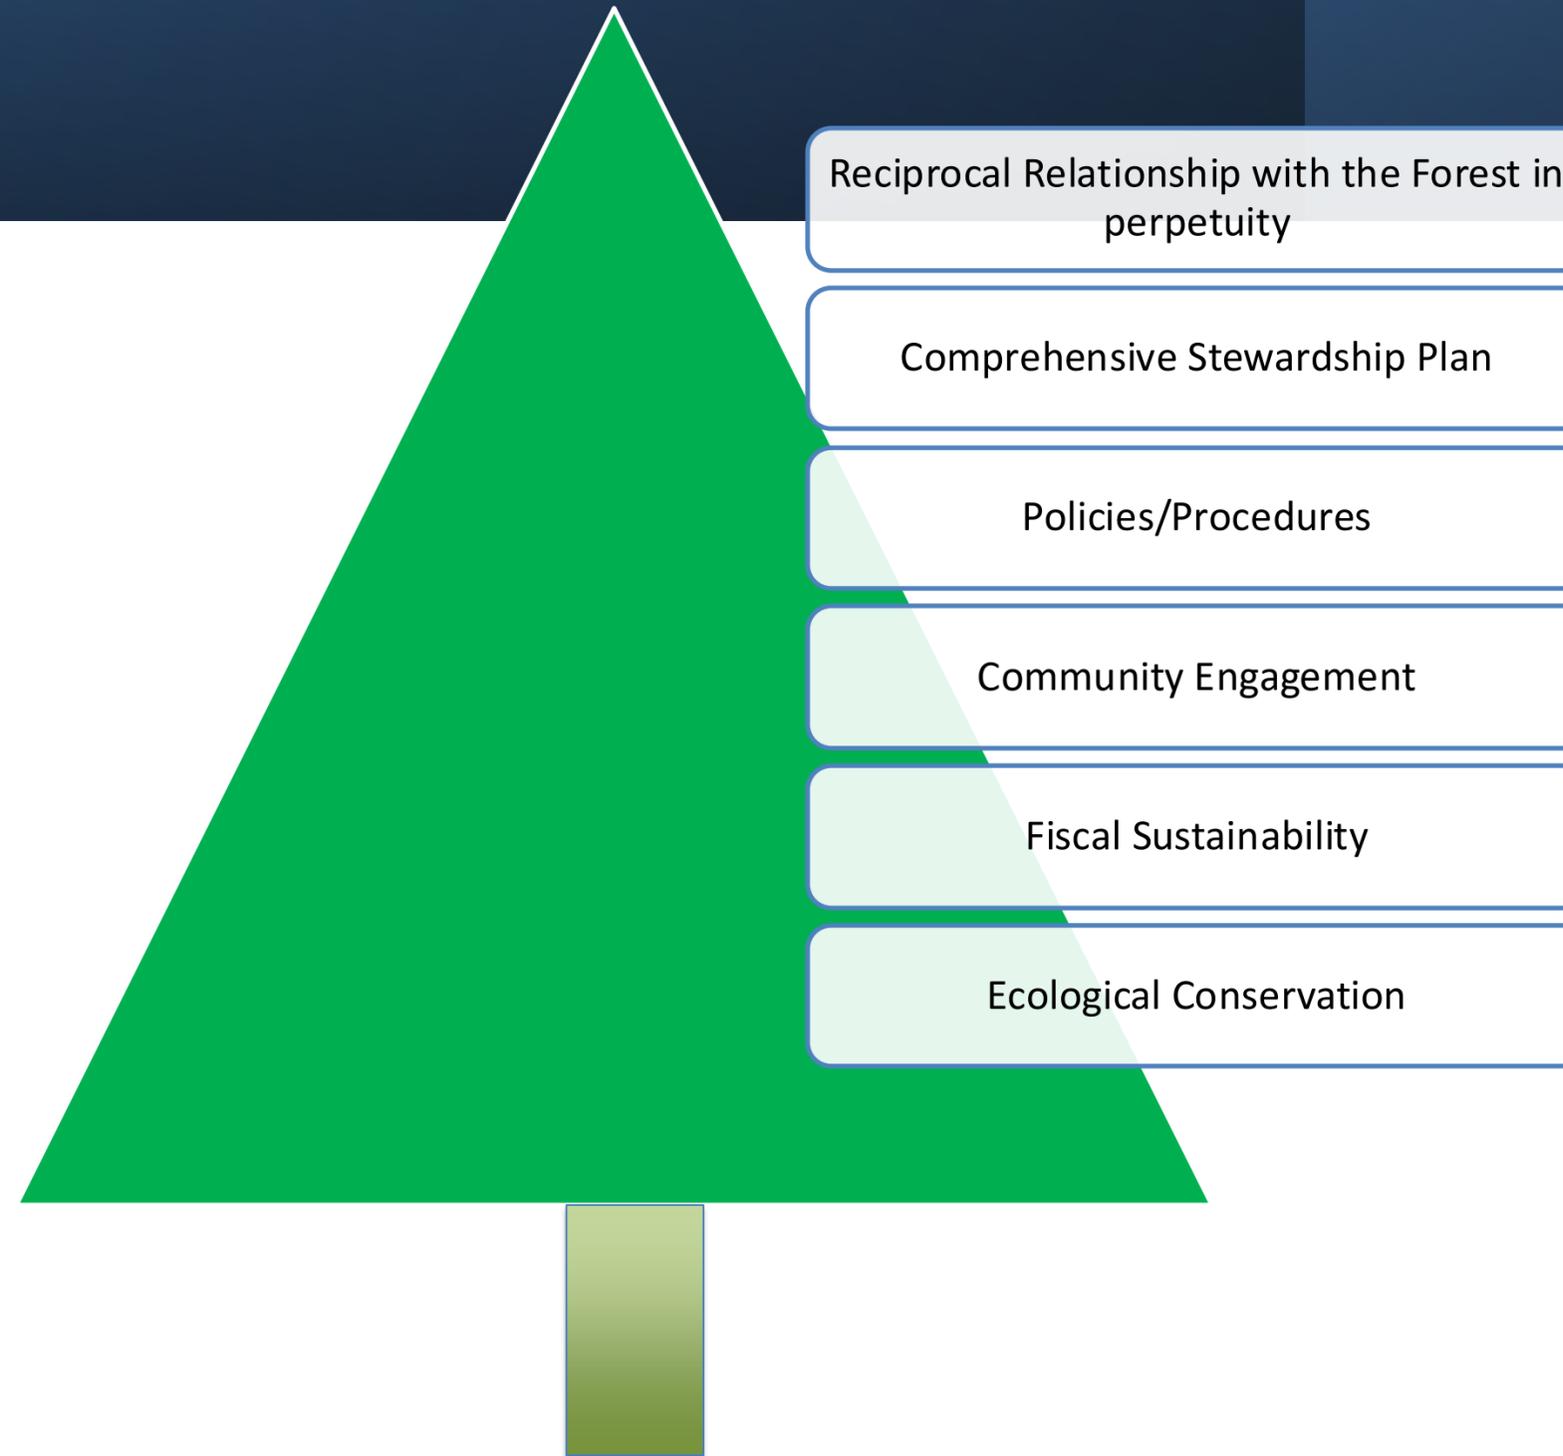

**THIS COMMUNITY FOREST WILL:**

- Preserve wildlife habitat and restore biodiversity
- Help keep our air clean, water pure, and sky dark
- Protect our local agriculture from land use and production changes
- Provide sustainable economic development and provide a local source of resources for construction, landscaping and land building
- Create educational opportunities for all
- Provide educational opportunities for school students and visiting farmers.

**How Did This Land Become a Community Forest?**

**T**HE HISTORY OF THE CREATION of Chimacum Ridge Community Forest is a story of long partnership and community support. In 2016, working with the local community, Jefferson Land Trust identified Chimacum Ridge as a high priority for protection. However, who owned the land, agreed to give the land to the Trust for Public Land, a longtime Jefferson Land Trust partner, bought the land in 2016 and immediately sold it to JPLM, a local management company who was a long-term partner. The Department of Defense's REPT program helped by buying an 80% interest in the land from the military. The Community Forest was established in 2018. The Community Forest was established in 2018. The Community Forest was established in 2018. The Community Forest was established in 2018.

# Early-Stage Management Reality

# Key Lessons

## Pre-Acquisition:

- Community Engagement early allowed operations to go from Vision to operational in a short amount of time, comparatively.
- Pay for Forestry Consultation early and project the type of forestry you will be messaging in your funding requests.

## Governance Structure:

- Clarity on work process “Who AND How is work expected to get done”
- Share responsibility though organization, this is a BIG undertaking.
- Be intentional here and explicit around self governance and accountability = Trust

## Funding to Opening: SETTING EXPECTATIONS

- Bring community along with forest management education
- Community Forests are Donation Winners!
- Conservation Easements and Policies can limit funding sources (Carbon Compliance Market)

## Early years responsibility:

- Grow together. Find local businesses and groups that are also starting journeys around shared values and build resiliency together.
- Slow it down. Lead today by stewarding for the next generation.

# A Community Forest Is a Relationship

Community Forests are social agreements, not just land projects. They require continual nurturing of trust, adaptability and shared responsibility.

Many thanks to our volunteers and partners. Jefferson Land Trust continues to learn so much through their caring and dedicated acts of kindness and support.

Thank you!

McKinleyville Community  
Services District

# McKinleyville Community Forest

Rooted in Nature. Built for Community.

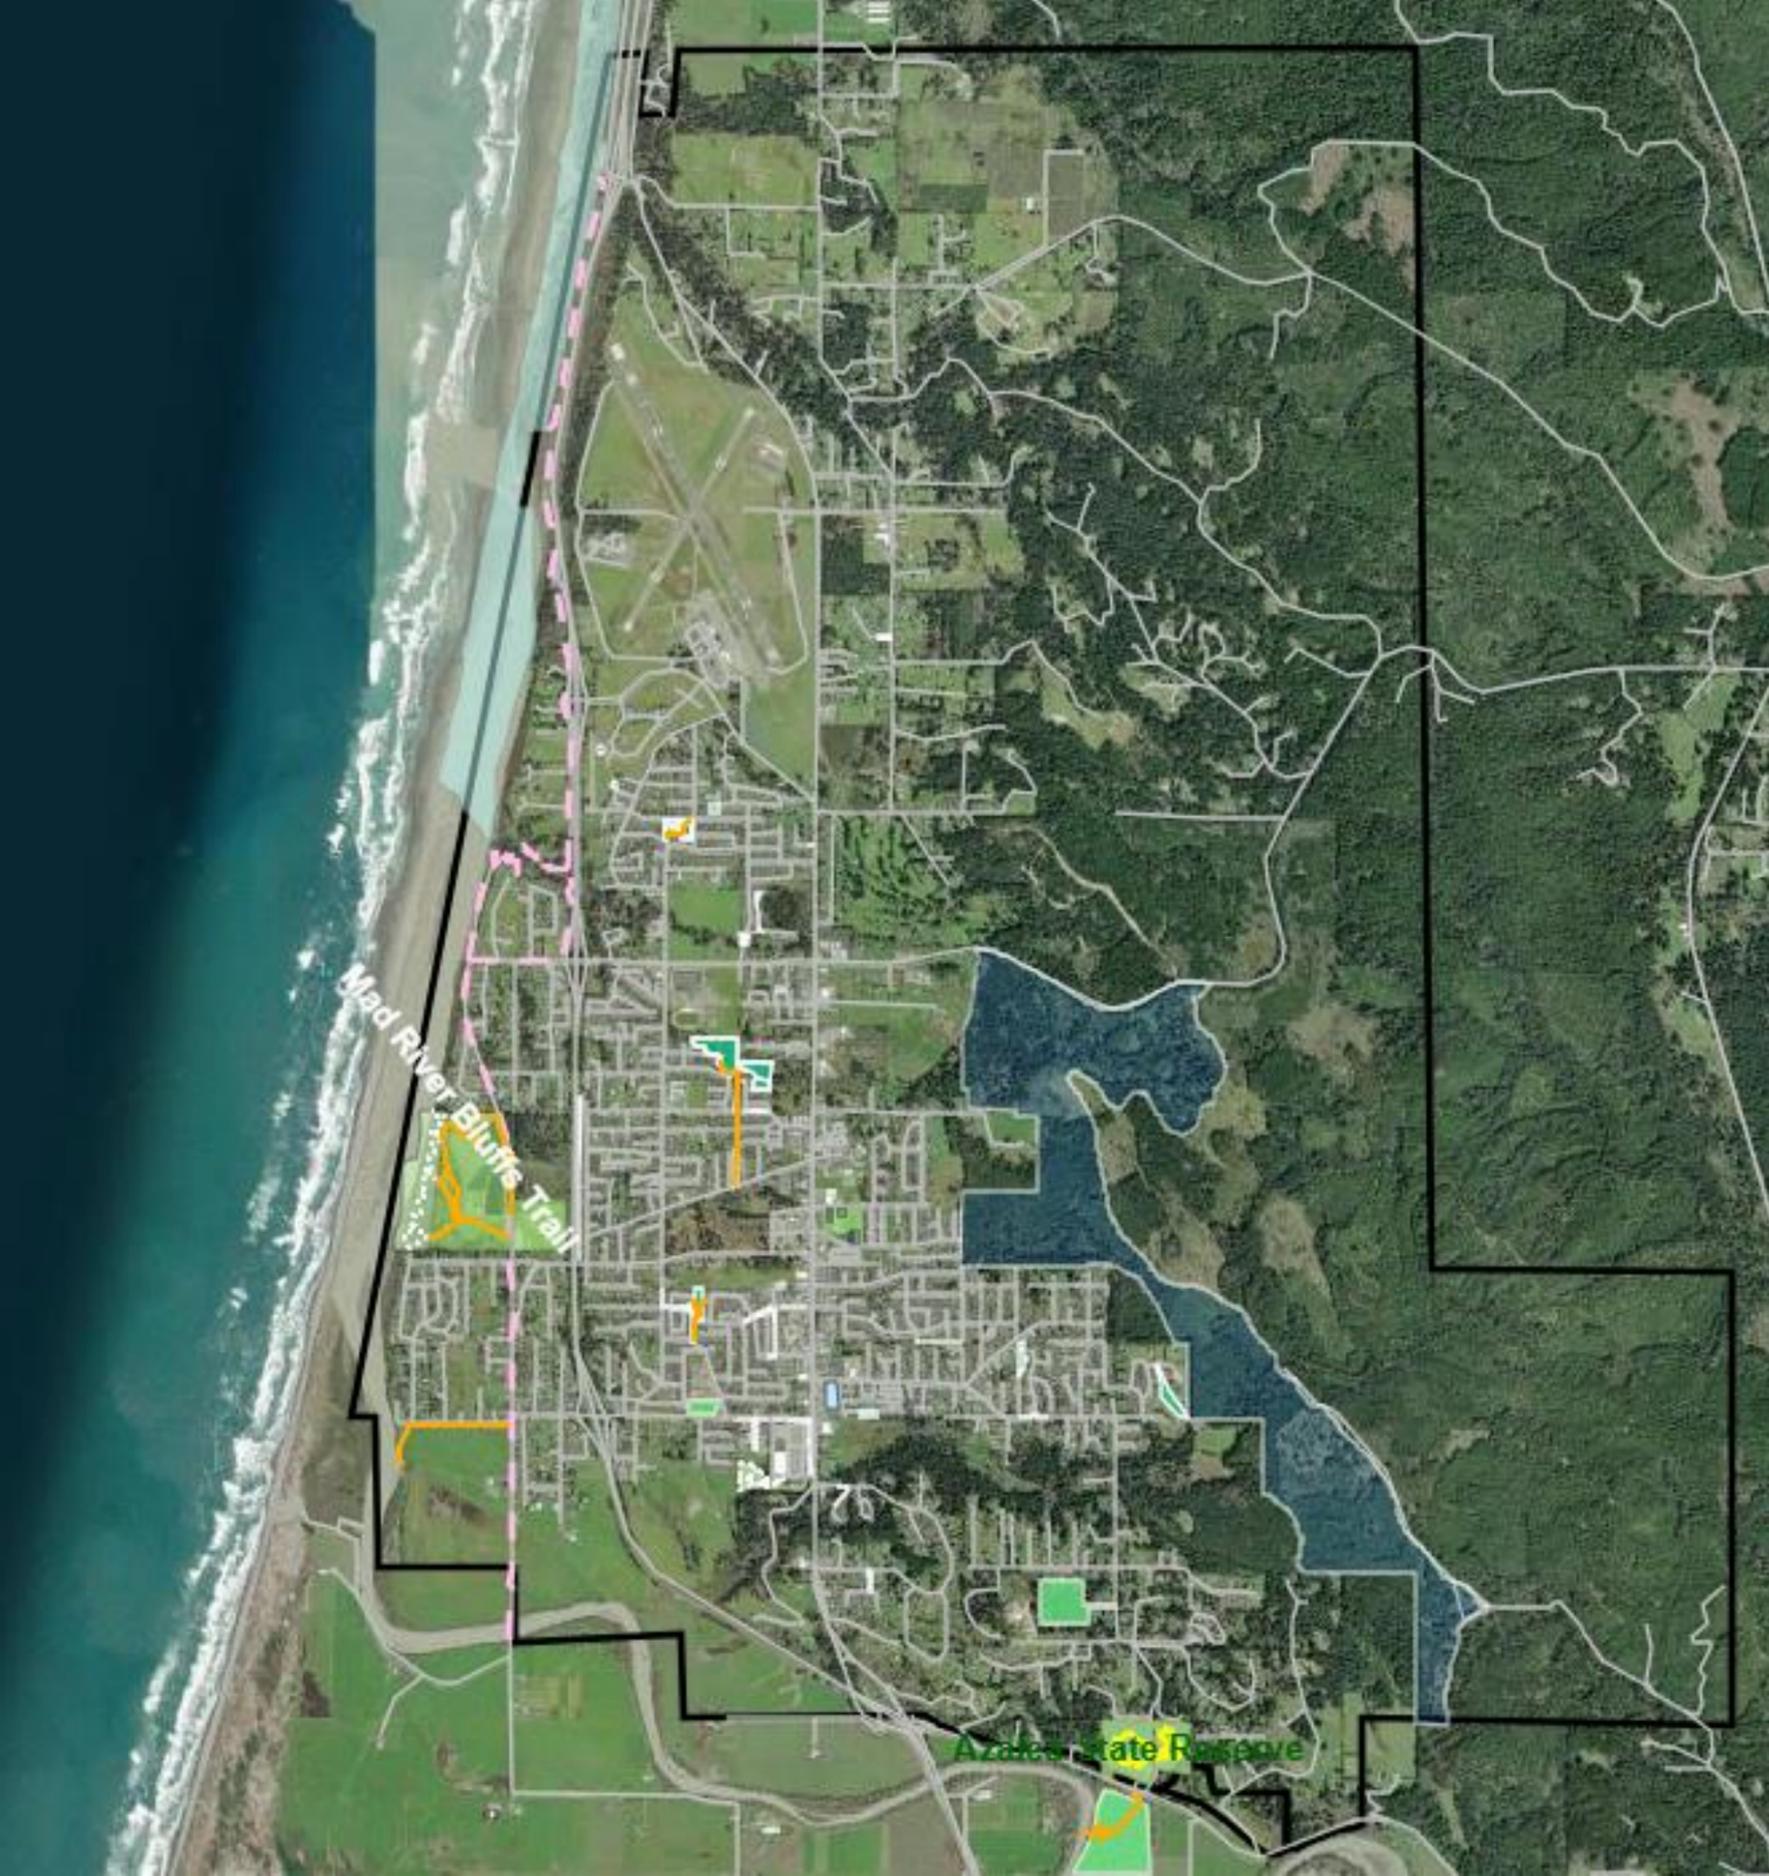

# McKinleyville, California

## Population & Growth

- Approximately 17,000 people live in McKinleyville (2025 projection).
- It's one of the largest unincorporated communities in California and among the biggest in Humboldt County.

## Households & Income

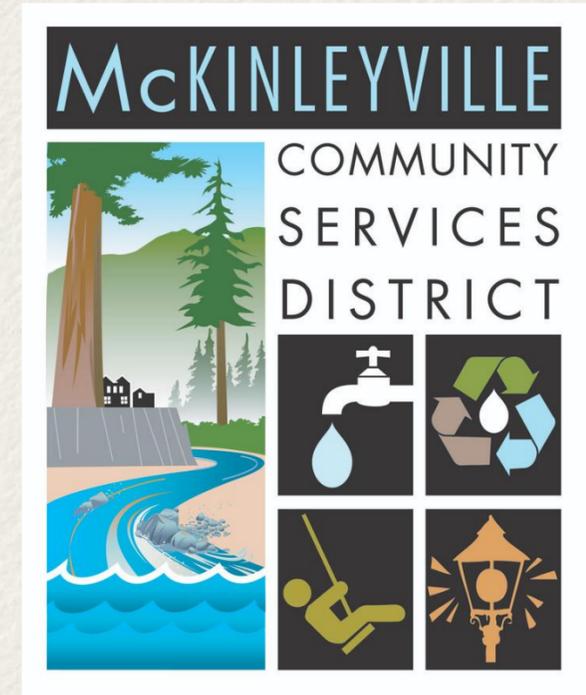

- Median household income around \$66,000-\$71,000.
- Average household size ~2.5 persons.
- Approximately 6,800 households.

# McKinleyville Community Forest Partners

**TRUST FOR  
PUBLIC  
LAND®**

# McKinleyville Community Forest (MCF)

## 1st Community Forest Managed by a Community Services District in CA

MCSD Parks & Recreation acquired the property in January of 2024

## 599 Acres of Forest Land

The Murray Road Parking Area is the first public access point where improvements have been completed.

## MCF Committee & Subcommittees

MCFC, TICS Subcommittee & FMPFB  
Subcommittee have monthly public meetings

## Forest Management Plan & Trails Plan

The subcommittees are currently working on the Forest Management Plan and the Trails Plan.

# MCF Timeline

**November 2015**

The McKinleyville Municipal Advisory Committee unanimously voted to create a community forest using one of three potential land options

**2013**

MCS D Board adopted a five-year strategic plan that included creating a community forest as an objective

**2015**

MCS D and The Trust for Public Land created a partnership to aid in creation of the MCF

**2016- 2020**

MCS D and TPL jointly applied for grants to acquire what the McKMAC described as Option 2 for a community forest

**December 2020**

The California Natural Resources Agency awarded TPL a \$3.8 million grant to acquire and transfer 599 acres of Green Diamond land to MCS D

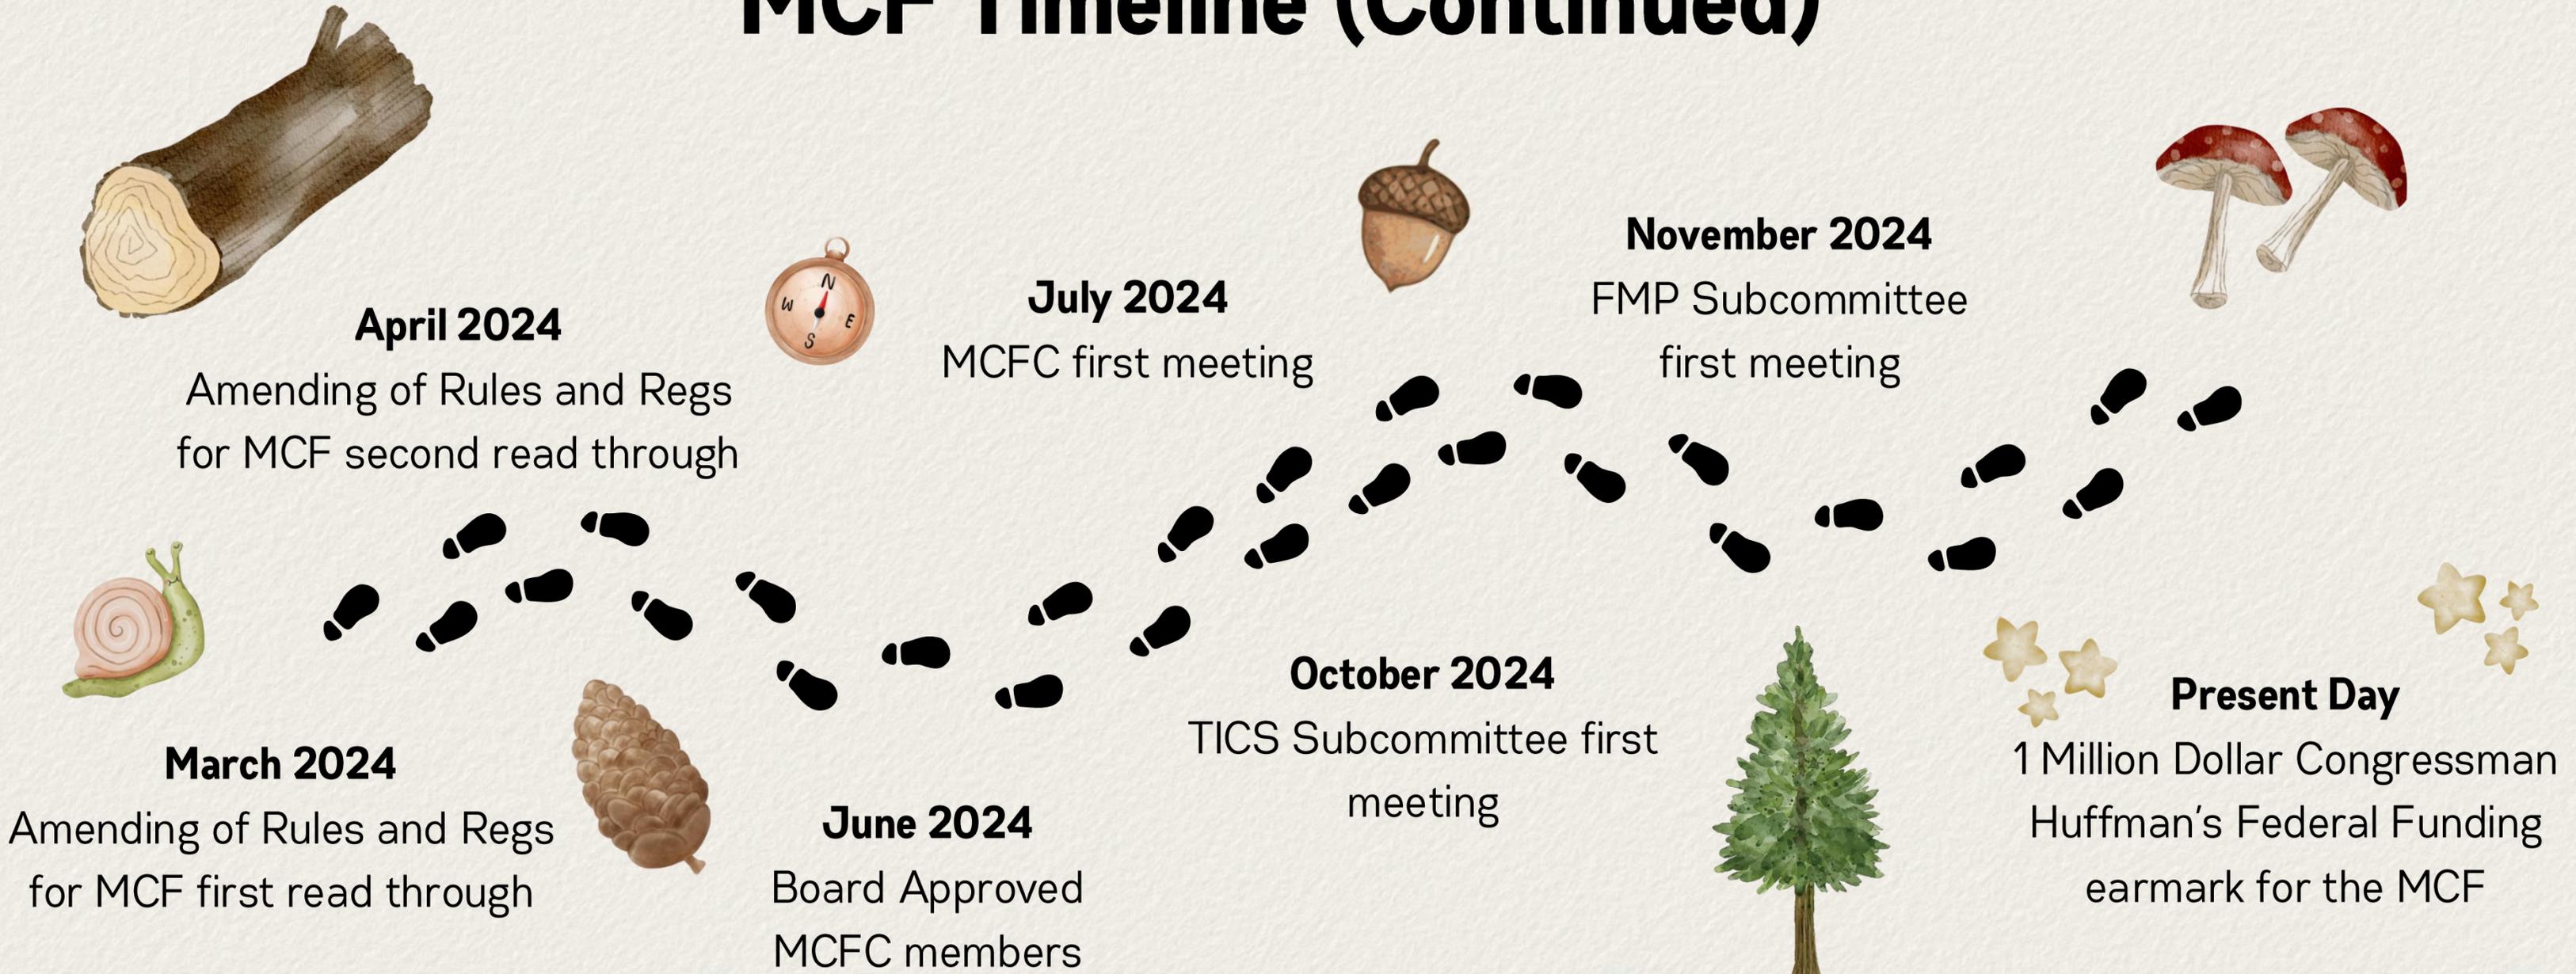

**January 2024**

MCS D, GDRCo, and TPL, closed escrow on 599 acres in northwestern Humboldt County to become the MCF

# MCF Timeline (Continued)

# Management Planning Process

## Daily and Long Term Management:

- Managed by MCSD's Parks & Recreation Department
- Administration Staff:
  - MCSD General Manager (Serves on MCFC)
  - Parks & Recreation Director (Serves on MCFC)
  - Environmental Programs Coordinator (Serves as MCFC Clerk)
  - MCSD Operations Director (Serves on MCFC)
  - Recreation Coordinator (Serves on MCFC)
- Maintenance/ Programming Staff:
  - Environmental Programs Coordinator
  - Parks Maintenance Supervisor
  - 4 Parks Maintenance Workers

## Community Goals Consideration:

- Guided by the McKinleyville Community Forest Committee (MCFC)
- Public meetings held monthly
- Two subcommittees support the work:
  - Trails / Infrastructure / Cleanup / Security (TICS)
  - Forest Management Plan & Funding/Budget (FMP)

# Implementation for First 2 Years

## Challenges in Launching the Community Forest

### Open to the Public – Immediately

- On Day 1 of ownership, the MCSD Board of Directors proclaimed the land public property and open for public use
- This happened before infrastructure, signage, or formal access points were in place

### Starting from Scratch

- No established trail system
- No parking areas or developed entrances
- No signage, maps, or wayfinding
- No on-site amenities (restrooms, trash, etc.)

### Planning While in Use

- The FMP is still being developed
- Balancing Access & Protection
- Need to provide recreation opportunities
- While protecting:
  - Sensitive habitats
  - Watersheds (Widow White & Mill Creek)
  - Long-term forest health

### Ongoing Community Expectations

- High public excitement and interest
- Limited funding and staffing for immediate improvements
- Reliance on phased development, grants, and partnerships

# Immediate Erosion Challenges

Widow White Creek

Mill Creek

# Implementation for First 2 Years

## Surprises Along the Way

### Establishing the MCF Fund at Humboldt Area Foundation

- Launched with a 25k donation from a local business
- Provides opportunity for local businesses and individuals to donate to support the MCF as a tax deductible donation

### Local Businesses Lending a Helping Equipment Operator

- Hooven & Co. Inc. helped to clear, level and spread gravel in the Murray Road Parking Area
- Increased safer parking for the first public access point

### 1 Million Federal Funding Ear Mark

- Thanks to advocacy from our Congressman Jared Huffman's support, this passed and will need to be spent in this Federal Fiscal Year

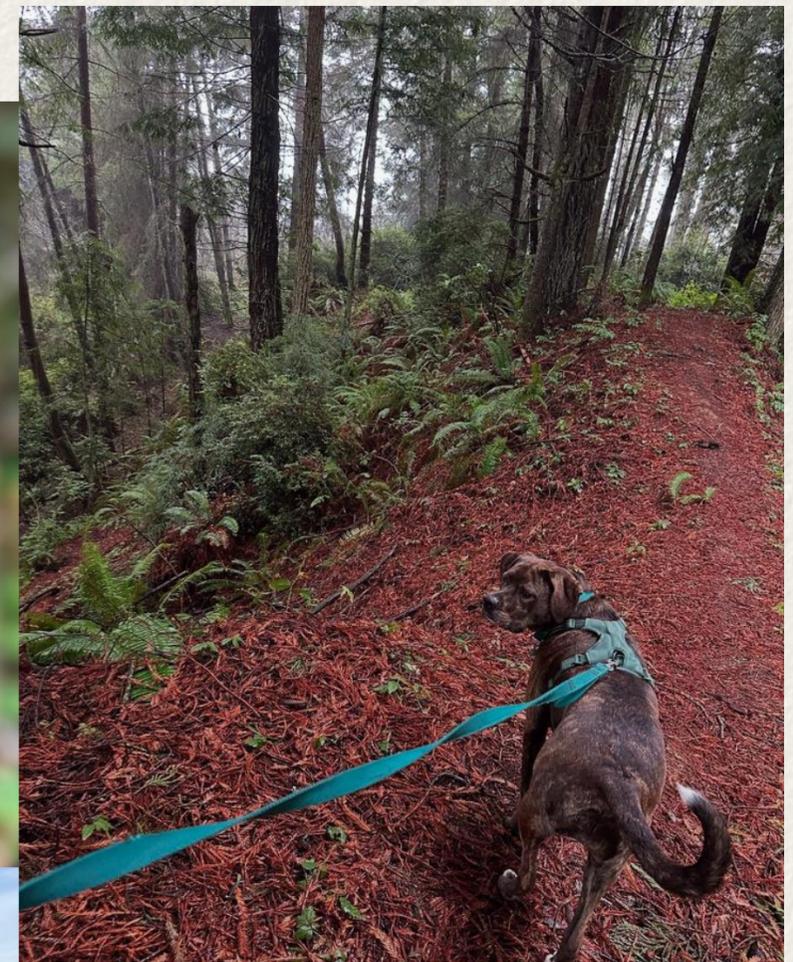

### Unexpected Partnerships Formed Early

As soon as the forest became public, community groups and organizations stepped up wanting to help steward and improve the land.

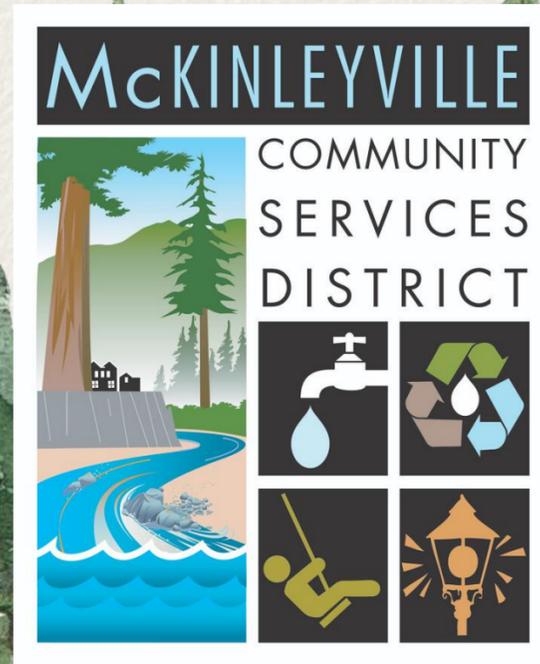

### Current or Emerging MOUs Include:

- Redwood Coast Bike Mountain Association
- Mountain Bike Tribal Trail Alliance
- Volunteer Trail Stewards
- Redwood Empire Endurance Riders
- Wright Tree Service

Community Forest Training  
Program: Session 4 Exit Ticket

Since 1972, TPL has protected 4 million acres of public land; created 5,364 parks, trails, schoolyards, and iconic outdoor places; raised \$93 billion in public funding for parks and public lands; and connected nearly 9.4 million people to the outdoors.
